

## License Review Classes

The Department of Environmental Quality in cooperation with listed educational institutions presents workshops to assist wastewater treatment plant operators and trainees to prepare for the wastewater licensure examinations. Course dates, locations, registration requirements, fees, contacts and other pertinent information are provided. For information regarding a specific program, call the contact person listed in the schedule for that location.

### Course Approval

All wastewater programs listed in this announcement are conducted using course materials prepared by the Office of Operator Training of the Department of Environmental Quality and approved by the State Board for Waterworks and Wastewater Works Operators for use as substitution for required operating experience as permitted by Board regulations.

### Cancellation

All classes are subject to cancellation in the event of insufficient registrations. **Persons traveling long distances to attend should confirm course availability prior to leaving home.**

## Course Registration

All participants must register with the host community college. **Most colleges require registrations and associated fees be submitted prior to the start of class.**

Since classes may be cancelled for lack of registrations, it is important to contact the college and register prior to the first day of classes. In the event a class must be cancelled only those who have registered will be notified of the cancellation. In some instances colleges will allow registrations on the first day of class on a space available basis. To obtain college registration information call the college contact listed in the schedule.

### Registration Questions:

**Call the contact person listed for the college you wish to attend.**

## Course Costs

Fees are set by the host institution and are listed for each location. Fees are subject to change. **All fees must be paid on or before the start of the class.**

**The fees listed in this announcement were accurate at the time the brochure was prepared. However, fees are subject to change and the actual course fees are those in effect at the time you register for the program.**

Billing arrangements must be made through the host institution prior the start of class. For additional information on billing or fees, call the contact person for the institution. **Checks should be made payable to the host institution.**

All wastewater licensure review class participants receive one set of the Basic or Advanced Wastewater Licensure Review manuals. Some programs may require additional reference materials. This is indicated by an asterisk (\*) following the program title. When needed these materials can normally be purchased at the institution's bookstore. For purchasing information contact the host institution contact person.

## Refunds

The host institution's refund policy applies. If you are unable to attend after registering for a program contact the institution immediately for withdrawal and refund procedures.

## Water Treatment Training Programs

The Department provides information on available water courses as service to the sponsoring institutions and water plant operators. Contact the host institution to determine whether a water program is approved by the License Board.

Water programs may require purchase of additional reference manuals. When required manuals can
